RECOMMENDED PRE & POST CARE FOR TRUSCUPLT FLEX TREATMENTS

For best results please follow these instructions

BEFORE YOUR TREATMENT:

- Hair in the treatment and gel pad area may need to be shaved.
- Be well hydrated prior to treatment.
- Body piercings may need to be removed if under or near the treatment area.
- Do not exercise within the 12 hours prior to treatment, as it may affect your tolerability of the treatment.
- Notify clinic of any changes to your health history or medications since your last appointment.

AFTER YOUR TREATMENT:

- Frequent urination and/or bowel stimulation may be caused by the procedure.
 - Tingling/Numbness in the areas treated up to a few hours after procedure.
 - Slight muscle soreness/tenderness 24-72 hours after procedure.
 - Random muscle contraction after procedure.
 - Increase in metabolic rate results in feeling hungry more frequently. Please be aware of this fact and DO NOT overeat.
 - Burns beneath the electrodes have been reported with the use of powered muscle stimulators. If this occurs, please call our office for wound management instruction.
